St. Patrick's Day Parade and Festival
March 8th - 1:00 p.m.
Historic Downtown Lemont

From the Mayor's Desk

Congratulations to our 2014 St. Patrick's Day Queen, Bridget Rose Lynn. There were a number of submissions nominating Bridget for this year's queen. It's clear to see why; as she has touched the lives of so many. Bridget comes from a long line of Irish ancestry. She has a passion for playing the fiddle and is an active member of the All-Ireland Grupai Cheoil. She shares her passion for Irish music by teaching younger musicians at the Murphy Roche School of Irish Music. Bridget has another passion for the game of golf. Currently a senior at Lemont High School, in 2013, she became the school's first two-time girl's golf state qualifier. Another success through the school's Future Business Leaders of America, was a first place win in the Community Service Project category as a co-leader of a clothing drive. In less than two weeks, the drive took in over 400 items which were donated.

I think to sum it up is to quote part of the words from one of the submitters, "...Bridget Rose Lynn exemplifies all the qualities that the Village of Lemont St. Patrick's parade queen represents – involvement in the Lemont Community, strong family ties with her Irish heritage and her grace, beauty and poise that speak for themselves!" Congratulations Ms. Lynn!

Sports Complex

The Village Board is continuing to evaluate the feasibility of bringing a regional municipal owned and operated sports complex to Lemont. The project intends to accomplish many Village goals including the creation of a self-sustaining economic draw to Lemont, as well as facilitating the cleanup and development of a long-time brownfield site with this recreational use. There are several aspects of the project in which the Board will be evaluating in the coming months in order to determine the feasibility of the project. I will be informing residents of any significant updates to the project at Village Board Meetings and on the Village website. For more information on the project, answers to various questions and our periodic updates, visit our website at www.lemont.il.us/sportscomplex.

Mayor's Message (cont'd)

MWRD

MWRD is moving forward with the expansion of its wastewater treatment facility at the north end of Stephen Street in the downtown. The project began late 2013 and will be completed by summer of 2015. According to the most recent update from MWRD, the blasting of rock, hauling of excavated material and site utility work is scheduled to start towards the end of February and continue into late spring. The majority of the concrete operations will begin early summer, except for minor concrete pours which will occur periodically throughout the project. More information on the project along with periodic updates can be found on our website at www.lemont.il.us/mwrdfacility.

McCarthy & Walker Intersection Improvements

The IDOT sponsored Walker and McCarthy Road project will start up this spring with traffic signal electrical work in March or April. Once that is completed, the surface course will be placed on the street, and pavement striping and landscaping work will be completed. The estimated completion date is aimed for the end of May.

Water Main Project

Pending Village Board approval, the Village will be bidding out the work to replace the water main on Warner Avenue, from 400 feet south of Weiner Avenue to Norton Avenue. The existing 6-inch water main breaks on a regular basis due to its age and the soil conditions in the area. The water service lines to each home will also be replaced up to the property line. Work is expected to commence in May and continue through the end of June, with final pavement patching and landscape restoration. Warner Avenue residents will be notified prior to the start of the work.

CDBG Sidewalk Repair

The Village received a \$250,000.00 Community Development Grant from Cook County for sidewalk repair/replacement work for the south downtown area. This includes Cass, Division, Fremont, Grant, Holmes, Lemont, Lincoln, and Porter Streets. The purpose of the project is to replace hazardous sidewalk areas, provide ADA ramps where possible, and fill in missing sidewalk gaps. Work is expected to begin in May, and will continue through June of this year.
